

Steven Van de Staak - New media expert

What is my goal?

Working within a large (corporate) company has been a very pleasant experience to me. Within such a company I like to cooperate with others. I feel at home at the communications, PR, ICT, New Media or marketing department.

Overview of me

Currently I'm finishing the Bachelor course of Interactive Media at the HvA (hogeschool van Amsterdam). I'm at 99% and expect to be finished within weeks.

Web design/maintenance, photography, video(for web) and 3D visualisations.

I like to work with Content Management Systems. Within these systems I can maintain, create and manage pages or websites. I also like to offer support to others. I can do photoshoots (model/product) too. I have a strong affinity with the web and multimedia. Since my internship at ING Wholesale Banking Comms I've also worked on my writing and communication skills.

Werk ervaring

ING Wholesale Banking Communications (intern) Feb 2008 - Feb 2009

Managed the ING WB's homepage usability project. Created an e-mail newsletter tool. Worked with the ING's CMS on the intranet and gave support/advice to the business. I also gave support to video projects and created several video's.

ING Renault F1 programme, London. (intern) Jun 2006 - Feb 2008

Functional en visual designer ING F1 bookingtool for the ING Intranet. Accountmanager over Belgian company who developed the tool. Project manager over ING F1 Video database.

AIS Lijstenmakerij & More 6 maanden 2006

Various tasks. Updating the website. Productphotography (mostly art). Exploring new media possibilities for in store applications. Printing on canvas.
